

The Peace Alliance is committed to growing a movement of a million strong for peace. Together, we will create a critical mass necessary for peacebuilding to be our societal norm. We can make it happen!

We are a grassroots educational and advocacy organization focused on transforming how individuals, communities, and nations respond to conflict and violence. The prevention and intervention solutions we promote have proven effective in saving lives and dollars while enhancing cooperation skills and increasing social resilience.

Peacebuilding, Our Next Frontier.

We champion evidence-based peacebuilding legislation and policies by encouraging policy-makers, the media and the public to support these conflict, and violence reduction approaches.

Five Cornerstones of Peacebuilding

The Peace Alliance specifically prioritizes the following areas:

Empowering Community Peacebuilding: Supporting comprehensive activities and strategies in communities working to address such challenges as crime, violence, and gangs. Effective programs may include hands on street outreach and intervention, mental health services, out-of-school programs, police/community relations, and arts-based practices.

Teaching Peace in Schools: Bringing into our schools conflict resolution curricula with tools such as social-emotional learning, communication techniques, restorative processes, mindfulness, and other proven peacebuilding skills to increase graduation rates and transform violence, bullying, truancy and other challenges facing youth.

Humanizing Justice Systems: Moving away from overly punitive policies, toward healing-oriented criminal and juvenile justice approaches. Restorative justice, diversion/alternative incarceration programs, and prisoner rehabilitation & re-entry programs are among the most promising solutions.

Cultivating Personal Peace: Integrating peace in our own lives, with our children, in our relationships, in the workplace, and in our approach to activism, through such methods as compassionate communication, mindfulness, empathy, and stress reduction.

Fostering International Peace: Championing peacebuilding approaches to international conflict and atrocity prevention in hotspots through mediation, diplomacy, and effective on-the-ground programs. Important components may involve development, post conflict justice, humanitarian aid, mediation, and support for frameworks necessary for democratic processes.

We recognize the powerful complementary work of millions of peacebuilders doing conflict resolution around the globe. We aspire to create a unifying platform to strengthen and expand a vibrant peace movement that brings effective solutions to bear on the challenges we face in our personal lives, our communities, and across our planet.

Take a step for peace that will change our world. Join us at: www.peacealliance.org
